# TOPIC I: CHANGES TO THE 2014 CAR

# Changes to the 2014 CAR

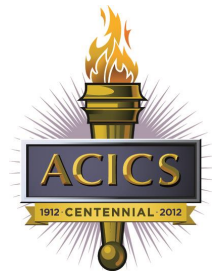

- “ **Program Level Retention Rate Formula**
- “ **Mitigating Circumstances (Program and Campus Level)**
- “ **Placement Definition**
- “ **Graduation Data**
- “ **CAR Addendum**

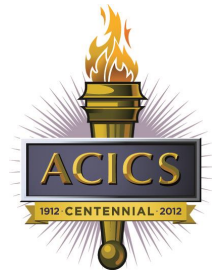

# Program Level Retention Formula

- “ Regarding transfers between programs, transfers out of one program to another will be subtracted from the total program enrollment (along with students that have withdrawn to enroll in an institution of common ownership).

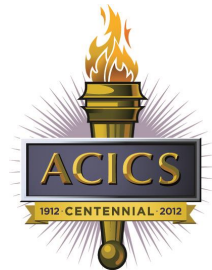

# Mitigating Circumstances

- “ In 2013, ACICS implemented Mitigating Circumstances at the program and campus level, if retention, placement and licensure pass rates fell below ACICS’ Compliance Standard of 60%.
- “ Submission of Mitigating Circumstances for retention, placement and licensure rates reported in the 2014 CAR will occur through a Council directive after the December 2014 Council meeting.

# Placement Definition

- “ Reporting placement data in the three categories remains optional for the 2014 CAR.**
- “ The 2014 CAR is designed to accommodate reporting in the three placement categories.**
- “ If institutional data was not captured to align with the three categories, institutions may place information in any one of the three categories.**

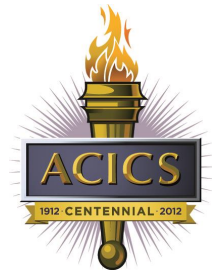

# Graduation Data

“ In the 2014 CAR, two questions are required to be answered for every program regarding graduation:

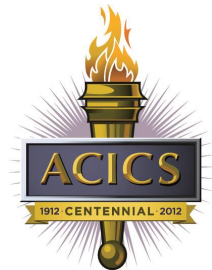

1) What percent of your students graduated within the normal length of the program?

2) What percent of your students graduated within 150% of the normal length of the program?

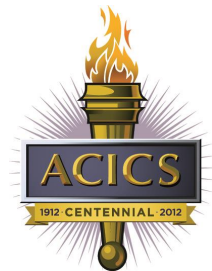

# CAR Addendum

- “ In 2012 and 2013 campuses that offered programs that required licensure for employment were required to submit their licensure pass rates via the CAR Addendum.
- “ In the 2014 CAR, program licensure pass rate information will be recorded in the program data spreadsheet.
